Unimas-STEM Encon 2016 to be held in October

KOTA SAMARAHAN: Faculty of Engineering Unimas will hold the 9th International Engineering Conference (Unimas-STEM Encon 2016) from 26 to 28 October, 2016 here.

The theme this year is "Innovative Solutions for Engineering and Technology Challenges".

Key topics included are on Structural Engineering, Geotechnical Engineering, Water Resources Engineering, Highway and Transportation, Environmental Engineering, Energy Efficiency, Renewable Energy, Chemical Engineering, Manufacturing and Industrial Engineering, Materials Engineering and other areas relat-

ed to the theme.

The conference begins on 24 and 25 October with a workshop on Eurocode Design titled "Reinforced Concrete and Structural Steel" conducted by two renowned researchers from Universiti Teknologi Malaysia, Ir Mohamad Salleh Yassin and Associate Professor Dr Ahmad Baharuddin.

This workshop is designed for Research Students, Scientists and Researchers involved in Reinforced Concrete and Structural Steel-related issues.

One interesting activity planned for Unimas-STEM Encon 2016 is the Science, Technology and Engineering Expo (STEEEx) 2016 on the 26 October, 2016.

This Expo showcases Innovative products from academia as well as industry.

The best innovation product prize would also be announced at this event, along with other prizes such as gold, silver and bronze medals for Best Technical and Scientific Contributions.

For the conference, all accepted papers will be published in SCOPUS indexed journals, recognised as a platform for Continuous Professional Development (CPD hours to be allocated) by IEM. The deadline for submission and registration is 2 May 2016. For more information write to encon2016@ejent.unimas.my or visit webpage <http://www.feng.unimas.my/encon2016/>.
