Unimas to play host to energy conference next week

KUCHING: Unimas, in partnership with the Asia Pacific Society for Solar and Hybrid Technologies, is set to host the World Hybrid Technologies and Energy Conference from Sept 30 to Oct 1.

The conference with the theme "Excellence in Industrial Education" is also part of Unimas International Festival of Science, Technology, Engineering and Mathematics (STEMFest).

It hopes to attract around 100 engineering educators and industry professionals from the global energy sector.

Keynote speakers will include Dr Peter Thong from the International Energy Conservation Environmental Protection Association, Asia Pacific Society for Solar and Hybrid Technologies president Professor Dr Nader Barsoum and Unimas Faculty of Engineering dean Professor Dr

Wan Hashim Wan Ibrahim.

Forty papers related to energy and hybrid will be presented on Oct 1.

Tabung Ekonomi Gagasan Anak Bumiputra Sarawak (Tegas) is sponsoring 100 engineering educators who will work towards ensuring that 100 remote communities in the state will have access to renewable electricity.

The conference will be officiated by Tegas chairman Datuk Len Talif Salleh.
