## **Acknowledgement**

We would like to thank Donny Yawah (PERHILITAN), Mat Naim Bin Haji Ramli (National Zoo of Malaysia), and Kavitha Jayaseelan (National Zoo of Malaysia) for their assistance in collecting blood samples at SDWCC and the National Zoo of Malaysia, respectively. We also thank Mdm Noor Azleen binti Mohd Kulaimi (PERHILITAN) for contributing to the collection of tapir samples from the National Wildlife Forensic Lab, PERHILITAN, as well as the staff from PERHILITAN, National Zoo of Malaysia, and SDWCC for providing sample information. We would like to thank the three anonymous reviewers who have provided valuable feedback on the manuscript. All scientific activities were conducted under a permit from PERHILITAN (permit reference number: NRE 600-2/2/21 JILID 2(42)). Unpublished chromosome-length Hi-C genome assembly for the Malayan tapir was used with permission from the DNA Zoo Consortium (dnazoo.org). Q. L. Lim would like to thank the Ministry of Higher Education (MyBrainSc Scholarship Program) and Universiti Putra Malaysia (Graduate Research Fellowships) for the financial support received during her master studies at Universiti Putra Malaysia when most of the research in this study took place. She would also like to give thanks to Wildlife Research Center of Kyoto University for the bioinformatic resources received to complete the final analyses presented in this study.

## **Funding**

This project was supported by the Ministry of Education Malaysia's Fundamental Research Grant Scheme (FRGS), project code: FRGS/1/2014/SG03/UPM/02/8; project vote no: 5524552, and by the Malaysian Nature Society Tapir Project Grant awarded to Geetha Annavi.

## **Ethical approval**

All sampling procedures used for the whole blood samples were approved by the Institutional Animal Care and Use Committee, Universiti Putra Malaysia (Ethical Approval Ref.: UPM/IACUC/AUP-R033/2016). All methods were performed in accordance with the Universiti Putra Malaysia Code of Practice for the Care and Use of Animals for Scientific Purposes.
