A Case Study on the Effects of Written Corrective Feedback on Collocation  
Competence: Evidence from a Public University in Malaysia

Abang Fhaeizdhyall Abang Madaud

A thesis submitted

In fulfillment of the requirements for the degree of Doctor of Philosophy

(Applied Linguistics)

Faculty of Language and Communication

UNIVERSITI MALAYSIA SARAWAK

2023

## DECLARATION

I declare that the work in this thesis was carried out in accordance with the regulations of Universiti Malaysia Sarawak. Except where due acknowledgements have been made, the work is that of the author alone. The thesis has not been accepted for any degree and is not concurrently submitted in candidature of any other degree.

Name: Abang Fhaeizdhyall bin Abang Madaud

Matric No.: 18010057

Faculty of Language and Communication

Universiti Malaysia Sarawak

Date : September 4, 2023

## ACKNOWLEDGEMENT

I have received a great deal of assistance and support throughout the writing of this thesis.

First, I would like to express my sincere gratitude to my supervisor Dr. Collin Jerome from UNIMAS for his continuous support in my Ph.D. journey. His guidance, patience, critical views, and great commitment have helped me in all the time of research and writing of my thesis. I could not have imagined having a better supervisor for my PhD journey.

Second, I would like to acknowledge my colleagues from Universiti Teknologi MARA Cawangan Sarawak who have contributed their ideas, guidance, and suggestions during the proposal development stage of the thesis. This is especially for senior lecturers in the Academy of Language Studies and the Faculty of Business Management. Furthermore, some lecturers from the Faculty of Mathematics and Computer Sciences deserve to be acknowledged for guiding me during the data analysis stage. Also, my appreciation goes out to my former students who had agreed to participate in the study, thus contributing to the completion of my study.

In addition, I would like to thank my parents for their wise counsel and understanding of my predicament in completing my Ph.D. study. Also, the process of completing the thesis involved many stimulating discussions with friends who are in the same course, completing their own Ph.D.s. Therefore, their support deserves a mention.

Last but not least, the critical feedback from Prof. Dr. Muhammad Kamarul Kabilan, Prof. Dr. Ting Su Hie, and Assoc. Prof. Dr. Shamala Paramasivam on my thesis deserves to be commended. Above all, thank you Allah for answering my prayers.

## ABSTRACT

Written Corrective Feedback (WCF) has been and remains one of the most contentious issues in Second Language Acquisition (SLA) studies despite its prevalence in L2 classrooms. The ongoing debate regarding the overall effectiveness of WCF has produced numerous empirical findings that have led to the inconclusiveness of its overall effects. This study was conducted due to the following situations: (1) most undergraduate students in the university, where this study was conducted, had difficulties forming accurate collocations; (2) WCF is broadly used in L2 classrooms despite its inconclusive effects; (3) lack of empirical evidence to support the use of WCF in L2 classrooms in the Malaysian university context. Therefore, this case study was conducted to investigate the effects of direct and indirect WCF on the collocational competence of low and high-proficiency ESL learners in a public university in Malaysia. Four research questions were derived to guide the study: (1) What are the short-term effects of direct and indirect WCF on the collocation competence of the students in the study? (2) What are the long-term effects of direct and indirect WCF on the collocation competence of the students after nine weeks? (3) What WCF type has a greater effect on the students' collocation competence? (4) What are the factors as perceived by the students that can contribute to or hinder the effectiveness of direct and indirect WCF in improving collocation competence? Data were collected from multiple sources which include a quantitative approach of using a series of collocation test instruments (i.e., Test 1, Test 2, and Test 3), an open-ended questionnaire, field notes, and course information document. The study was conducted during the academic session of September 2019-February 2020 with a total of 120 ESL students in a public university in the state of Sarawak, Malaysia. The students were identified based on their performance in the previous semester's English course that was used to determine their proficiency groups which includes several-low-proficiency (e.g., Group 1, Group 2) and high-proficiency

(Group 3, Group 4). The findings have revealed that direct and indirect WCF have positive short-term effects on the collocational competence of all groups. In addition, concerning the students' proficiency in this case study, the findings suggest that indirect WCF may not provide long-term benefits to low-proficiency ESL students (Group 3), but it may be beneficial to high-proficiency ESL students (Group 4). In highlighting the findings from the third research question, direct WCF is the fittest type of corrective feedback to facilitate their collocation competence. Moreover, this case study has also revealed several causes that can lead to the effectiveness of WCF practices such as learners' factors and the nature of corrective feedback factors. On the other hand, contextual factors and the nature of corrective feedback factors can contribute to the ineffectiveness of WCF. This study has contributed to generating new knowledge in the literature, providing empirical evidence to guide language educators' practices of using WCF, and creating new directions for future researchers.

**Keywords:** Written corrective feedback, direct, indirect, English collocation, effectiveness, case study.

***Satu Kajian Tentang Kesan Maklum Balas Pembeduan Bertulis Terhadap Keupayaan  
Kolokasi: Bukti daripada Sebuah Universiti Awam di Malaysia***

**ABSTRAK**

*Maklum balas pembeduan bertulis (WCF) merupakan satu isu yang berpanjangan didalam Kajian Penggunaan Bahasa Kedua (SLA) walaupun ianya merupakan satu teknik yang sering di pakai di dalam kelas bahasa kedua. Kajian ini dijalankan oleh sebab kewujudan pelbagai variasi dapatan kajian mengenai keberkesanan WCF yang tidak konklusif dan penggunaannya masih meluas di dalam kelas bahasa Inggeris sebagai bahasa kedua. Kajian ini dijalankan atas sebab-sebab berikut: (1) kebanyakan pelajar di universiti tempat kajian dijalankan mempunyai masalah dalam menghasilkan kolokasi Bahasa Inggeris dengan tepat; (2) WCF kerap digunakan di dalam kelas walaupun tiada petunjuk yang konklusif tentang keberkesanannya; (3) kekurangan sorotan literatur untuk menyokong penggunaan WCF di dalam konteks pendidikan tahap universiti di Malaysia. Justeru, kajian kes-berganda ini dijalankan untuk mengkaji keberkesanan WCF (secara terlus, dan tidak terlus) untuk meningkatkan penguasaan kolokasi bahasa Inggeris pelajar di sebuah universiti awam di Malaysia. Empat soalan kajian telah digubal untuk mengemudi kajian ini: (1) Apakah kesan jangka pendek daripada penggunaan maklum balas bertulis secara terlus dan tidak terlus terhadap keupayaan kolokasi pelajar?(2) Apakah kesan jangka panjang daripada penggunaan maklum balas bertulis secara terlus dan tidak terlus terhadap keupayaan kolokasi pelajar?(3) Apakah jenis maklum balas bertulis yang memberikan kesan terbaik terhadap keupayaan kolokasi pelajar? (4) Apakah faktor yang boleh membantu atau mengurangkan keberkesanan maklum balas bertulis dalam meningkatkan keupayaan kolokasi pelajar? Data kajian dikumpul melalui beberapa sumber seperti: (1) ujian kolokasi; (2) survey kualitatif; (3) nota lapangan; (4) dokumen yang berkaitan melibatkan*

*subjek seperti kursus Bahasa Inggeris semester lalu. Kajian telah dijalankan pada sesi akademik 2019/2020 bersama 120 org pelajar bahasa Inggeris sebagai bahasa kedua di sebuah universiti awam di Sarawak, Malaysia. Kumpulan pelajar telah ditentukan melalui pencapaian subjek Bahasa Inggeris semester lepas dimana dua kumpulan adalah pelajar berkeupayaan rendah bahasa Inggeris (Kes 1 & Kes 2), dan dua kumpulan berkeupayaan tinggi bahasa Inggeris (Kes 3 & Kes 4). Dapatan menunjukkan kedua jenis WCF mempunyai kesan positif terhadap penguasaan kolokasi pelajar di dalam semua kes. Seterusnya, dapatan juga menunjukkan WCF secara terlus mempunyai kesan jangka panjang terhadap pelajar di dalam kes 1 dan kes 3. Tetapi, WCF secara tidak terlus hanyamemberi kesan jangka panjang terhadap pelajar kes 4 sahaja. Ini menunjukkan bahawa WCF jenis ini tidak sesuai untuk pelajar berkeupayaan rendah. Melalui soalan kajian keempat, beberapa faktor telah dirungkai, dimana faktor ini mampu memberi kesan kepada keberkesanan WCF: (1) faktor pelajar; (2) faktor ciri-ciri WCF; dan (3) faktor konteks. Kajian ini telah menyumbang kepada perkembangan literatur, menawarkan bukti empirical kepada pendidik bahasa Inggeris tentang penggunaan WCF, dan membukalebaran baru kajian untuk penyelidik masa hadapan.*

**Kata kunci:** *Maklum balas pembetulan bertulis, secara terlus, secara tidak terlus, kolokasi Bahasa Inggeris, keberkesanan*

3.10.4	The Context of this Case Study is Limited to One Local University	167
3.11	Summary of the Chapter	167
	<b>CHAPTER 4: FINDINGS</b>	168
4.1	Short-term Effects of Direct and Indirect WCF on the Collocation Competence of the Students	169
4.1.1	Group 1	169
4.1.2	Group 2	172
4.1.3	Group 3	173
4.1.4	Group 4	176
4.1.5	Direct and Indirect WCF Can Facilitate Learners’ Collocation Competence	178

	in Short-term	
4.2	Long-term Effects of Direct and Indirect WCF on the Collocation Competence of the Students	179
4.2.1	Group 1	179
4.2.2	Group 2	182
4.2.3	Group 3	184
4.2.4	Group 4	187
4.2.5	Indirect WCF was not able to Facilitate Collocation Competence of Low-Proficiency Learners in Long-term as Compared to Direct WCF	190
4.3	Type of WCF that Has a Greater Effect on Students' Collocation Competence	190
4.3.1	Group 1 and Group 2 of Low-proficiency Students	191
4.3.2	Group 3 and Group 4 of High-proficiency Students	196
4.3.3	Direct WCF Has a Better Effect on the Collocation Competence of the Students	202
4.4	Factors Contribute to or Hinder the Effectiveness of Direct and Indirect WCF	202
4.4.1	Within-case Analysis	203
4.4.1.1	Group 1	203
4.4.1.2	Group 2	214
4.4.1.3	Group 3	221
4.4.1.4	Group 4	229
4.4.2	Cross-case Analysis	237
4.4.3	The Effectiveness of WCF is Caused by Learner's and Nature of CF	245

	Factors whereas its Inefficiency is Due to Contextual and Nature of CF Factors	
4.5	Chapter Summary	247
	<b>CHAPTER 5: DISCUSSIONS</b>	248
5.1	Direct and Indirect WCF Positively Affects the Collocation Competence of the Students in Short-term	249
5.2	Direct WCF has a Positive Long-term Effect on Collocate Competence whereas Indirect WCF was Less Effective for Low-proficiency learners	252
5.3	Direct WCF is more Effective than Indirect WCF	257
5.4	Learners' Factors and the Nature of CF Factors can Contribute to the Effectiveness of WCF whereas the Nature of CF and Contextual Factors can Degrade WCF	261
5.4.1	Learners' Factors Contributing to the Effectiveness of WCF	262
5.4.2	Nature of CF Factors Contributing to the Effectiveness of WCF	265
5.4.3	Nature of CF Factors Hinder the Effectiveness of WCF	269
5.4.4	Contextual Factor of Illegible Handwriting of WCF Provider	272
5.5	Chapter Summary	274
	<b>CHAPTER 6: CONCLUSION</b>	275
6.1	Summary of Key Findings	275
6.2	Theoretical Contribution	281
6.3	A Guideline for L2 Educators to Use Written CF with ESL Learners	284
6.3.1	Allow Learners to Indicate their Preference of WCF Type	286
6.3.2	Allocate Time for Learners to Review the CF Provided	286

6.3.3	Address Common Linguistic Errors with the Whole Class	287
6.3.4	Inform the students of the types of WCF used at the start of school terms	287
6.3.5	Employ Focused Written CF (instead of unfocused)	288
6.3.6	Use a Printed Form of Written CF	288
6.3.7	Integrate both Types of Written CF	288
6.3.8	Provide any type of WCF as opposed to not provide any	289
