Series Editors

Mohammad Jawaid, Chemical and Petroleum Engineering, United Arab Emirates University, Al Ain, United Arab Emirates

Anish Khan, Centre of Excellence for Advanced Materials, King Abdulaziz University, Jeddah, Saudi Arabia

Sustainable Materials and Technology (SMT) book series publishes research monographs (both edited and authored volumes) showcasing the latest developments in the field and comprehensively covering topics such as:

- Recycling of waste into useful material and their energy applications
- Catalytic action of Nano oxides for efficient carbon reforming process
- Sustainable technologies for plastic transformation
- Bifunctional nanoparticles for sustainable water splitting applications
- Sustainable dyeing and printing
- New materials from waste
- Sustainable Manure Management and Technology: Potentials, Uses and limitations
- Sustainable Mechanical Engineering Approach
- Sustainable biochemistry for the improvement of health
- Sustainable development of Mechanical recycling of automotive components
- Sustainable-waste recycling and conversion in useful materials for different applications
- Sustainable development of inexpensive Nano-photo catalysts
- Sustainable development of recycling of discarded lithium ion batteries
- Modern sustainable cement and concrete
- Sustainable adsorbent for hazardous removal
- Sustainable superior electromagnetic shielding materials
- Excellent sustainable nanostructured materials for energy storage device
- Sustainable development of heavy metal detoxification from water
- Carbon dioxide utilization for sustainable energy
- Sustainable development in green syntheses of materials
- Environment friendly and sustainable cloth for garments application
- Sustainable design and application of eco-materials
- Nanoparticles for sustainable environment applications
- Sustainable remediation of industrial contaminated water towards potential industrial applications
- Biomaterials for sustainable bioremediations

Contents

Valorization of Palm Biomass Wastes for Biodiesel Production	1
João H. C. Wancura, Maicon S. N. dos Santos, Carolina E. D. Oro, J. Vladimir de Oliveira, and Marcus V. Tres	
Hydrogen as an Alternative Biofuel Through Gasification Process: Comparative Study of the EU and Turkey	23
F. M. Alptekin and M. S. Çeliktaş	
Targeted Synthesis of Hydrocarbon Fuels and Fuel Oxygenates by Catalytic Conversion of Biomass Components	43
Navya Subray Bhat, Saikat Dutta, and Girdhar Joshi	
Experimental Investigation of Used Vegetable Oil-Diesel Blends as Alternative to Fossil Fuel in Compression Ignition Engine	73
Joseph O. Dirisu, Sunday O. Oyedepo, Precious I. Airhihen, Damola S. Adelekan, Uyi K. Efemwenkikie, and Anish Khan	
Fast Microwave-Assisted Pyrolysis of Wastes for Biofuels Production	95
Xin Jiat Lee
