Ministry Confident International Conference Will Benefit UNIMAS Students

KUCHING, Nov 7 (Bernama) -- The science, technology and innovation ministry is confident Universiti Malaysia Sarawak (UNIMAS) students can explore future research opportunities and collaboration in the areas of design and innovation, via international conferences.

Deputy Minister Datuk Fadillah Yusof said international conferences provided ample opportunities for networking and improving the indigenous knowledge in an attractive and friendly environment.

He said the 1st International Conference on Design and Innovation 2012 (1st ICDI 2012) which was opened at the UNIMAS Kota Samarahan campus here today, was one such conference.

"It provides a platform to all participants to relook, debate, discuss and debunk prevailing realities within the sphere of design and innovation," he said in his speech during the opening of the conference themed, 'Sustainable Ground'.

The text of his speech was read out by Malaysia Design Council chairman Datuk Prof Dr Ahmad Zainuddin.
