Workshop empowers UNIMAS undergraduates for real world

KOTA SAMARAHAN: Universiti Malaysia Sarawak (UNIMAS) students were given valuable exposure to realities of life after graduation in a recently organised ‘Getting Ready for the Real World’ workshop.

The one-day workshop, which was jointly organised by 360 Studio Worldwide, Kaki seni and UNIMAS, aimed to educate undergraduates on the challenges that they would face in the working world.

UNIMAS students who participated in the event were ecstatic to have been given such a useful opportunity to learn in a workshop which was conducted by established facilitators, including local artist Megat Shahrizal and local rap star, Altimet. Among the activities conducted were discovering your passion, pathways to surviving the real world and moving out of their comfort zone. UNIMAS Vice Chancellor, Prof Dato’ Dr Mohamad Kadim Suaidi also came by to spend a quick moment with the workshop participants, facilitators and crew members.

The programme was concluded with a live performance by Altimet at Panggung Gemilang UNIMAS on the same evening. Being his first ever performance in Kuching, Altimet was overwhelmed by the hospitality and support showed by undergraduates at the university. He was also impressed with UNIMAS students’ creativity and confidence during the workshop activities.

The workshop is part of the #SamaSama initiative, a brainchild and collective effort of various non-profit Organisations, which aim to assist, inspire and empower youths of Malaysia today. UNIMAS is proud to be chosen as the host of the initiative in Sarawak and is looking forward to collaborate in more #SamaSama youth-empowerment programmes in the future.
