## Unimas holds Engineering Week 2013

**KOTA SAMARAHAN:** Students of the Faculty of Engineering of Universiti Malaysia Sarawak (Unimas) in collaboration with IEM-UNIMAS Student Section have successfully organised Engineering Week 2013 as a continuation of the programme last year.

The programme has been planned and designed with more attractive closure which is expected to give an overview of current technology in line with the theme 'Engineering Beyond Technology'.

The programme, which is being held from 4 to 7 December, was

launched by Dr Hushairi Zen, the Deputy Dean (Postgraduate and Research) of the Faculty of Engineering, yesterday morning.

The launch was in conjunction with the launch of the Faculty of Engineering's 20th anniversary.

"Some of the activities organised for the Engineering Week 2013 are Honda Hybrid Car Autoshow, A Day with IEM, Forum Premier, Women Engineering Session, Futsal Cup NC, Exhibition and Demonstration of RC Flying and *Semaian Bakti* programme," said programme director, Muhammad Faizal Hafiz Shamsi.

"This programme relied upon

to achieve our primary objectives of producing engineers who are balanced in terms of spiritual and intellectual development, and enhancing the creativity and innovative thinking among students of the Faculty of Engineering.

This programme will also foster good relations between Unimas community and rural community and strengthen the relationship between the lecturers and the students. This is because we have a lot of activities involving our students and those from other universities," said Faizal.
