# Learning sciences colloquium at Unimas May 18

**KOTA SAMARAHAN:** A colloquium on MSc Learning Sciences will be held at the Centre for Academic Information Service (CAIS) Auditorium of Universiti Malaysia Sarawak (Unimas) on May 18.

This is the first time that the university's Faculty of Cognitive Science and Human Development is organising such an event.

Unimas has created a record of sorts for being the first university in the country to offer a Masters

in Learning Sciences as part of its postgraduate programmes.

The colloquium will enlighten the public on the diverse field of learning sciences. The event will also serve as a platform to discuss the latest developments, matters of interest, and current focus in this field of study.

Themed 'Rethinking Learning', the colloquium will showcase the work of students who are pursuing this programme. The students are expected to present

their literature review papers to a panel comprising lecturers from the faculty and invited guests.

Professor Tan Sri Dzulkipli Abdul Razak, the vice chancellor of Albukhary International University, is scheduled to officiate at the event.

The colloquium is opened to members of the public. For more information, visit <http://lscolloquium.weebly.com/>. Alternatively, email queries to [lscolloquium2013@gmail.com](mailto:lscolloquium2013@gmail.com).
