FROM GREAT IDEAS TO REALITY
FYP SYMPOSIUM
FACULTY OF
COMPUTER SCIENCE & IT
15th - 17th JUNE 2015
8.30AM - 5.00PM
Opening Ceremony Officiated by:
YBhg Prof. Dr Wan Hashim b Wan Ibrahim,
Deputy Vice Chancellor (Academic & International)

DESIGNER:
HIRNAWATT MASLAN
Dear students,

First of all, on behalf of the faculty, I would like to congratulate all students who are registered for Final Year Project (FYP), and have completed the report and the system/project. Final Year Project is one of very important milestones and achievement for your study in FCSIT. In order to successfully complete the project, you need to be able to use and apply all the knowledge that you have acquired during your study. It is probably one of the most challenging (not to mention stressful, sleepless night, etc.) experience during your study here, but I can assure you that what you have learned, and experienced, will greatly benefit and prepare you when joining the "real world" in very near future. Your journey at FCSIT is coming to an end, it's like running a 100 meters race with a few steps to go, and the last few metres are the most challenging. Another aspect that I would like all of you to think about is the potential commercialization of your FYP project. Based on our experience, the quality of many FYP projects is good enough to be commercialized to the real world. Be creative, and be brave to commercialize your project. I wish all the best for your presentation, and we are very proud of your achievement.

I also would like to take this opportunity to thank the FYP Coordinator (Prof. Wang Yin Chai), all students (FYP Symposium Committee) and faculty staff who are involved in organizing the FYP Symposium, and last but not the least, to all supervisors for guiding and supervising the students throughout their FYP journey.

With best regards,

Dr. Johari Abdullah
